

GitHub Issue Analysis

Comprehensive Report

flutter/flutter

Built for Developers, By Developers

Deep analysis with Stack Overflow solutions

Ø=ÜÊ Total Issues Analyzed: 59

Ø=Üí Issues with Solutions: 0

Ø=Ý Stack Overflow Solutions: 0

Ø=ÜÅ Generated: 11/9/2025

Helping developers solve problems faster

Ø=ÜÈ Executive Summary

This comprehensive report analyzes 59 issues from the flutter/flutter repository.

Key Findings:

- 0 issues (0.0%) have Stack Overflow solutions
- 0 total Stack Overflow solutions identified
- Average 0.00 solutions per issue
- 40 open issues, 19 closed issues

This analysis helps developers:

- Find existing solutions faster
- Understand common problem patterns
- Learn from community knowledge
- Reduce debugging time

The report includes detailed analysis, Stack Overflow solutions, code examples, and actionable recommendations for each issue.

Ø=Üi Stack Overflow Solutions Deep Dive

Analyzing top 0 Stack Overflow solutions by quality and relevance

Ø<ß- Recommendations and Insights

&þ Low Solution Coverage

Only 0.0% of issues have Stack Overflow solutions.

Consider:

- Creating more detailed issue descriptions
- Adding relevant tags and labels
- Searching with alternative keywords

Ø=ÜÊ High Open Issue Ratio

There are significantly more open issues than closed ones.

Recommendations:

- Prioritize issues with existing Stack Overflow solutions
- Focus on high-impact issues first
- Consider community contributions

Ø=Üi Solution Quality Insights

Average solution score is relatively low.

Tips:

- Look for solutions with higher view counts
- Check accepted answers
- Review multiple solutions for best practices

Ø=þ€ Best Practices for Using This Report

- Start with issues that have high-quality solutions (score > 10)
- Review multiple solutions to understand different approaches
- Check solution dates - newer solutions may use modern practices
- Verify solutions work with your specific use case
- Contribute back by updating issue status or adding comments

Ø=ÜÚ Learning Opportunities

- Study patterns in frequently occurring issues
- Learn from highly-viewed Stack Overflow solutions
- Identify common pitfalls and edge cases
- Build a knowledge base from these insights

Ø=Ý Continuous Improvement

- Run this analysis periodically to track progress
- Monitor solution coverage trends

- Update documentation based on common issues
- Share findings with your team

Ø=ÜÍ Appendix

Methodology

This report was generated using the following process:

1. Issue Collection

- Fetched issues from GitHub API
- Filtered out pull requests
- Collected metadata and state information

2. Stack Overflow Search

- Searched using issue titles as keywords
- Retrieved top 5 relevant solutions per issue
- Ranked by relevance, score, and views

3. Quality Analysis

- Calculated quality scores based on:
 - Solution score (community votes)
 - View count (popularity)
 - Answer status (accepted/not accepted)

4. Report Generation

- Comprehensive analysis of all issues
- Statistical insights and trends
- Actionable recommendations
